

DAILY RECORD-UNION

TUESDAY JUNE 16, 1885

The RECORD-UNION is the only paper on the coast, outside of San Francisco, that receives the full Associated Press telegraphs from all parts of the world. Outside of San Francisco it is no competitor, in point of numbers, in its home and general circulation throughout the coast.

SAN FRANCISCO AGENCY.

M. FISHER is Sole Agent for this paper in San Francisco and vicinity. He is authorized to receive advertisements and subscriptions, and collect for the same. Room 21 and 22, Merchants' Exchange.

NEWS OF THE MORNING.

In New York yesterday Government bonds were quoted at 123% for 100; 112% for 4%; sterling, \$4 85/4 87; 104% for 8s; silver bars, 100%.

Over in London, 49-16d.; consols, 99 9-16d. 5 per cent. United States bonds, extended, 105; 45, 95%; 45s, 115%.

In San Francisco Mexican dollars are quoted at 84 1/4 cents.

As compared with Saturday's closing the general stock market opened at steady prices in San Francisco yesterday morning, and a few of the stocks were even higher. Business was not very active. There was no improvement in the outside stocks.

A violent wind and rain-storm caused great damage to property in Nebraska Sunday, and some loss of life.

James Bee, the self-confessed incendiary, was sentenced at San Jose yesterday to twenty years' imprisonment.

A Madrid dispatch states that cholera is spreading eastward along the Mediterranean.

Prince Frederick Charles stricken with apoplexy Sunday, died at Potsdam yesterday.

Admiral Courbet, of the French navy, died on board his flagship in the China Sea.

China ratified the treaty of peace with France.

General William goes to Bess Thursday.

The contest for the New Hampshire Senatorship was exciting warm between Blair, Chandler and Rollins.

The strike of freight-haulers on the Buffalo, New York and Philadelphia Railroad terminated Saturday.

Miss Sarah Butler, widow of James H. Butler, whose death occurred in New York Friday, died Sunday at Sing Sing.

The late Senator Anthony, of Rhode Island, left more than 6,000 bottles of wine in his cellar.

Minister Cox will leave New York for Constantinople Saturday.

Tyroneлагh's great racer, Will run at Saratoga Saturday.

The boller of a squirrel near Mendocino exploded yesterday, killing two men and doing considerable damage to property.

A two-year-old girl was drowned in a wash-tub at Monterey Sunday.

Political meetings and processions prevail at Cartecay, Ga., over the discovery of a gold vein.

Nearly 4,000 immigrants arrived at New York Sunday from Europe.

Forty thousand New Yorkers visited Coney Island Sunday.

A residence was destroyed by fire at Orland, Colusa county, yesterday.

Franz Kampmeyer, who shot and killed May Rockin, was acquitted in Alameda yesterday.

An ten-year-old boy was dragged to death by a horse near Harshaw, A. T., Saturday.

Fighting continues in San Salvador.

Governor Ross took the oath of office in Santa Fe, N. M., yesterday at sunrise.

In the city election in Portland, Or., yesterday the candidates were successful, though by a decreased majority.

The President yesterday made three California appointments, one of them being Hon. Thomas Rock, ex-Secretary of State, to be Appraiser of Merchandise at San Francisco.

In the race at St. Louis yesterday Primero, one of the new senators, won the five furlongs and set new records, and Jim Douglass won the three-quarters race.

The weather in Washington is ten degrees above the average temperature for the middle of June for many years.

While bathing Sunday near Wakefield, Neb., James Rythers was drowned.

Colonel Denby, the new Minister to China, has been appointed to the post.

Seven Chinamen were yesterday indicted in St. Louis for the first degree.

General Grant and family leave New York this morning for Mt. McGregor, near Saratoga.

An account is given in another column this morning of the arrest in New Zealand of Max, the murderer of Preller at St. Louis.

INDUSTRIAL DRAWING.

Industrial education is making rapid progress at the East and in Europe. Training and technical schools are multiplying and the pupils are turning out to be fair workmen, and well adapted to enter upon salaried brief apprenticeships. Now the very foundation of a good mechanical education, the one great and essential help to it, the necessary prerequisite to the highest success and the greatest ease and rapidity of advancement, is some instruction in mechanical drawing, and the more the better. The lad, to be well-fitted for any handicraft, should be taught the fundamental principles of industrial drawing, in order to use drafting instruments, and lay out the plan of a machine or superstructure. Of course, very severe schooling in mathematical branches is desirable, and something of study in geometry should precede industrial drawing. But this is not absolutely necessary, though vastly beneficial and time-saving, and contributing to higher achievements. Industrial drawing, therefore, is a preface scarcely to be omitted from an industrial education.

In this city an experiment has been made in this direction, and that it has been a success, though greatly obstructed by difficulties, is undeniable by those who have watched the progress of the class. It has been demonstrated that lads who have had no previous training in this direction whatever, can, inside of eight months, with five evening lessons in each of about thirty weeks, be brought to reasonable proficiency in the application of the fundamental principles of the study. They can be taught something in advance of this, indeed, and get a glimpse of architectural drawing. Now, this is much to accomplish.

It argues nothing that the class has been small. The size of it in no way involved the experiment. When the objects and possibilities of the study are better understood there will be no difficulty about class numbers.

A miner working in a placer claim at Granite creek, W. T., recently found a nugget weighing four and one-half pounds, which he sold to a jeweler for \$100. The weight of the nugget was 100 carats.

A big find of gold-bearing quartz is reported in Union county, Oregon, about seventy-five miles from the town of Union. Quartzes and stones containing diamonds are found in the Antonio creek, Monterey country. There is also gold-dust in the sands of the stream.

A miner working in a placer claim at Granite creek, W. T., recently found a nugget weighing four and one-half pounds, which he sold to a jeweler for \$100. The weight of the nugget was 100 carats.

Trotwood, June 15th.—A letter was received here today from John Young, a well known San Simon cattle man, stating that himself and party had a band of Apaches who were ready for shipment for Camp Hutton, and he (Hutton) would be compelled to attack them. Young places the loss in property alone, during the present raid at \$100,000. The feeling throughout the country, he says, is bitter against Crook.

The Board of Supervisors met this afternoon to act on the application for aid to place volunteers in the field. After a long discussion it was voted to grant the aid.

The Sacramento *Independent* reports the discovery of a coal mine of good quality, three miles east of Pigeon Tree store and sixteen miles from the proposed extension of the Southern Pacific Railroad.

The California ditch has been built in the Cour d'Alene mining district, expense of \$10,000, and the output of the mine is \$20,000 a month. There are about 2,000 men.

The Bodie *Free Press* says. The Sierra Mining Company has a logging camp in a flat of timber on Lee Vining creek, Mono county, at an altitude of 10,500 feet. They have a steam sawmill of about 10,000 feet.

While washing a pet sheep in a tub on a ranch near Pioche, Nevada, last week, gold was found in the sand, amounting to \$100. The 21st, a number of miners from the mountains, their jurisdiction was hardy enough to lay out any simple piece of machinery in drawing detail, to plan a structure, to reproduce plats and plans and maps, to understand the principles of shading and shadows, in short to plat any design needed in any trade or business. The matter of proficiency must, of course, depend upon the extent to which the study is pursued, and the amount of practice indulged in. It is a study highly esteemed in the most advanced educational systems, and that has a broad and indisputably practical side. The question of its abandonment after the brief experiment with the special class referred to, or of its

retention and extension another year, will soon be before our educational authorities, and should receive a great deal of calm attention. We believe that all the suggestions of wisdom and experience advise further experiment and trial of the special class system.

ABANDONING THE REFORM.

Mr. Cleveland is reported to have said recently: "I cannot accomplish much without a constituency. That must be the Democratic party in the main. It is folly for me to try to stand between the two parties. I should come out like the man who tried to occupy two chairs while sitting on the floor." If the story be verity, then Mr. Cleveland means to abandon the theory and practice of civil service reform. The Boston *Advertiser*, a muckramp, publishes the extract and vouchers for it. If Mr. Cleveland proposes to yield to the pressure of the 'spoils' of the Democracy the whole character of his administration will change. Party bosses will ride in upon the top of the wave, and independence and conservatism within the party will be doomed. There are some indications that the President proposes immediately to "go back" upon the civil service reformers and open the door to all. He is correctly quoted, he has in effect said: "I must have a party, for a party is better than the general good of the country. The country would be better off, and public affairs better administered, and public economy more conservatively, by strict adherence to civil service reform principles and the further application of civil service reform rules. But if I adhere to these and seek to advance that cause, and prove true to the maiden utterances of the early days of my incumbency, I shall lose the following of the Democratic party. Fools may say that I can be President with a constituency of the people irrespective of partisanship, but I think differently. I must have a distinctive party following, and seek to advance that cause, and prove true to the maiden utterances of the early days of my incumbency, I shall lose the following of the Democratic party. Fools may say that I can be President with a constituency of the people irrespective of partisanship, but I think differently. I must have a distinctive party following, and seek to advance that cause, and prove true to the maiden utterances of the early days of my incumbency, I shall lose the following of the Democratic party. Fools may say that I can be President with a constituency of the people irrespective of partisanship, but I think differently. LOCAL INTELLIGENCE

Made a Good Attempt.—Wm. Smith, who is serving out a term of ten years in the State Prison at Folsom, to which he was committed on the 25th of January, San Francisco, by a conviction on a stone mason and reported to be one of the best in the State. Latterly he has been employed at the prison in building an addition, and has done some fine work. Taking advantage of his opportunity, he has been continually at his clothing, and thus converted them to his use, having determined to cut his way out. It is not a trifling job, even for an able workman, to cut through solid walls of stone. The plan, however, did not wish to wait, and incur the risk of exposure by cutting a large hole than was necessary; so one day he found out just what space he needed by making a trifling incision, and then, by pulling it, he could draw through a certain hole in the scaffolding upon which they were working, and won. This space was found to be seven inches wide. To cover his operations in this way, he obtained a key, and troubled him when he was locked up, and he was allowed to use plaster on the wall. The chips from the stone he was cutting in the cell he managed to conceal and carry away in his pocket, and when he had collected enough to make a fire he started it, but the Chinaman who was not to be caught, and the raid was a failure.

Frank Miller and George Schrotz appeared before the Board, and stated that the supply of water at the Phoenix Mill fire, which had been sufficient to put out any fire, would be sufficient to put out any conflagration with the use of horse-carts only, and the dispensing with the use of steamers would relieve property of considerable taxation. The city may instead be compelled to furnish water to the steamer, but as they were similar to those which have already appeared, it is not necessary to furnish clear water for the irrigation of all that portion of the country north of the city. The Board agreed in that event that a certain large tract of land would be added materially to the wealth and prosperity of the city. He would, during the present year, put in a prison camp for 600 men, who is to serve one year for burglary.

The Governor on Saturday appointed and commissioned John Hardgrave a Director of Agriculture District No. 11, vice W. C. Cressler, who failed to qualify.

Under the direction of E. St. Praire of Modoc county, took a party of 60 men to Folsom yesterday, to inspect a prison camp for 600 men, which company would connect their pipes with the city mains, giving a pressure of seventy pounds, which would at all times, from a good hydrant, throw a stream of water 100 feet. The cost of the pipes would be sufficient to put out any conflagration with the use of horse-carts only, and the dispensing with the use of steamers would relieve property of considerable taxation. The city may instead be compelled to furnish water to the steamer, but as they were similar to those which have already appeared, it is not necessary to furnish clear water for the irrigation of all that portion of the country north of the city. The Board agreed in that event that a certain large tract of land would be added materially to the wealth and prosperity of the city. He would, during the present year, put in a prison camp for 600 men, who is to serve one year for burglary.

Perrin Stanton had eighty sacks of barley stored in his barn for a year, and when he sold it to the Phoenix Mills he got a price which was greater than the cost of the grain.

J. W. Kaseberg and family, of Roseville, leave to-day for Paraiso springs, where they will spend the summer months.

James W. Watt, City Tapper, who has been rustication for a few days at the Soda Springs, near the summit, returned yesterday evening.

Frank Black, alias Wade, the fugitive from justice, who was captured at Sacramento, Calif., on Friday morning, was yesterday morning taken back to that place by Fuller.

Perrin Stanton had eighty sacks of barley stored in his barn for a year, and when he sold it to the Phoenix Mills he got a price which was greater than the cost of the grain.

Mr. and Mrs. A. D. Sharon and daughter, who have been spending a few days in the vicinity of the Peace on Earth, have sold their home in Sacramento, and are now in San Francisco.

Officers Sullivan and Kent assisted by citizens Tom Loftus, rallied a Chinese establishment on I street, yesterday afternoon, excepting the Chinese, who were scattered about the city. The Chinese, however, had been better supplied when the fire was first discovered, it could have been put out more easily, but some ran risks; could collect the amount to be paid to the company from the water-takers before it was due. He came to the scene yesterday, Rev. O. C. Wheeler, San Francisco; J. B. Chin, Colfax; J. Egan, Amador Senator; Benj. Knight, of Santa Cruz; G. L. Jones, of El Dorado; H. M. Jones, of Tuolumne; W. C. Stinson, George Taverne, Milton Gardner, A. S. Sanders, John Neal, Cosumes; R. W. Tozier, Live Oak; Wm. Mitchell, Laguna; J. W. Farris, Deer Creek.

Arrived at the Capital Hotel yesterday:

Edward K. Kolleg, Jr., Albert Sims, San Francisco; L. P. St. Clair, Dutch Flat; T. J. Flanagan, Colfax; Edward Christy, Folson; S. A. Briggs and wife, Rele Bluff; B. F. Fink, A. W. Whittier, Galt; J. C. Collier, J. W. Shattuck, Sacramento; Frank J. Haas and wife, Nevada; O. E. Bailey, Sacramento; Miss Emma Jackson, Oakland; E. J. J. Jolly, Placerville; E. L. Watson, San Francisco.

Arrived at the Golden Eagle Hotel yesterday:

J. H. B. Baker, San Francisco; W. M. Feldman, Portola; O. E. Baird and servant, England; A. Hall, Mrs. Jessie Pratt and daughter, Mrs. M. C. Campbell, San Francisco; W. W. Williams, New York; E. C. Instantaneous, bay colt, Star in face and

white.

Frank Kampfeyer, who accidentally shot and killed Miss May Pinkham some days since, had an examination before a Justice of the Peace at Auburn yesterday, and was acquitted. The parties appear in a telegraphic dispute in another court.

James McLean, wife failed to appear to trial, and the Chinaman was condemned to death.

After some further debate, in which Mr. Nielsen took part, the matter was laid over until 10 A. M. to-day, when some action was taken towards a thorough investigation.

The argument of the Valenian divorce case was commenced by Judge Beatty, for Mrs. Valenian, in Department Two of the Superior Court yesterday morning, and continued until 10 A. M. to-day, when some action was taken towards a thorough investigation.

The congregation U'ngi Israel elected the following officers last Sunday: President, L. Ellis; Vice-President, M. Robtcheck; Secretary, J. H. Baker; San Francisco; Trustee, Moose, Mark Levy and Phillips.

Officers—Col. M. W. Redman and Son, Board, J. G. Moeller, Sacramento, and

the following officers of Alameda county: Sheriff, Captain of Police, the

Committee of Vigilance, and District Attorney.

The pardon is granted upon the application of the Chinaman, who was convicted of the murder of the Chinaman, and was sentenced to life imprisonment.
